In order to gain further funding Hosting, sold 2,803,000 shares of our common stock from November 2000 through May 2001 in a private placement offering. Scott Vicari owns 3,000,000 shares of our common stock.

1

RISK FACTORS

Investing in our common stock involves a high degree of risk. You should carefully consider the risks and uncertainties described below before you purchase any of our common stock.

If any of these risks or uncertainties actually occur, our business, financial condition or results of operations could be materially adversely affected. In this event you could lose all or part of your investment.

RISKS CONCERNING OUR BUSINESS

WE HAVE NO OPERATING HISTORY.

We are a new enterprise that has had no revenues to date and no operating history upon which an evaluation of our business and prospects can be based. Our accumulated deficit as of September 30, 2001 is \$71,015. Losses for the year ending September 30, 2001 were \$70,420. We must, therefore, be considered to be subject to all of the risks inherent in the establishment of a new business enterprise, including the prospective development and marketing costs, along with the uncertainties of being able to effectively market our products. We cannot assure you at this time that we will operate profitably or that we will have adequate working capital to meet our obligations as they become due. Because of our limited financial history, we believe that period-to-period comparisons of our results of operations will not be meaningful in the short term and should not be relied upon as indicators of future performance. (See DESCRIPTION OF BUSINESS.)

WE ARE DEPENDENT UPON SCOTT VICARI, ANY REDUCTION IN HIS ROLE IN HOSTING WOULD HAVE A MATERIAL ADVERSE EFFECT.

The success of Hosting is dependent on the vision, knowledge, business relationships and abilities of Hosting's CEO and president Scott Vicari. Any reduction of Mr. Vicari's role in the business would have a material adverse effect on Hosting. Hosting does not have a key man life insurance policy on Mr. Vicari.

WE MAY HAVE DIFFICULTY IN OBTAINING ADDITIONAL FUNDING, IF REQUIRED.

If additional funds are needed, we may have difficulty obtaining them, and we may have to accept terms that would adversely affect our shareholders. For example, the terms of any future financings may impose restrictions on our right to declare dividends or on the manner in which we conduct our business. Also, lending institutions or private investors may impose restrictions on future decisions by us to make capital expenditures, acquisitions or asset sales.

We may not be able to locate additional funding sources at all or on acceptable terms. If we cannot raise funds on acceptable terms, if and when needed, we may not be able to grow our business or respond to competitive pressures or unanticipated requirements, which could seriously harm our business.

WE ARE DEPENDENT ON EARTHLINK AND VERIZON FOR ACCESS TO THE INTERNET NETWORK.

Our ability to offer end-users a high-quality hosting network on an affordable basis is dependent upon our contractual relationship with Earthlink which charges us a fixed monthly fee for Internet access. We have a contract with Earthlink, which has a month to month term. Earthlink contracts with Verizon. We do not have a direct contract with Verizon. If these contracts were to be terminated, or if the terms were to be substantially amended, we might be required to enter into arrangements for bandwidth (capacity, e.g. amount of lanes on the "Internet highway") and connectivity (we now rely on Earthlink for our connection to the Internet) with others on less favorable terms. There is no assurance that we would be able to purchase connectivity on comparable terms and there is no assurance that we would be able to pass on additional costs to our customers. This could result in decreased Internet connection speed and a reduction in capacity, resulting in poorer service to our clients. Our inability to obtain bandwidth on comparable terms could materially and adversely affect our business, financial condition and results of operations.

2

PROVIDING SERVICES TO CUSTOMERS WITH MISSION-CRITICAL WEB SITES AND WEB-BASED APPLICATIONS COULD POTENTIALLY EXPOSE US TO LAWSUITS FOR CUSTOMERS' LOST PROFITS OR OTHER DAMAGES.

Because our Web site and application hosting services are critical to many of our customers' businesses, any significant interruption in our services could result in lost profits or other indirect or consequential damages to our customers. Our customers are required to sign service forms which incorporate our standard terms and conditions. Although these terms disclaim our liability for any such damages, a customer could still bring a lawsuit against us claiming lost profits or other consequential damages as the result of a service interruption or other Web site or application problems that the customer may ascribe to us. There can be no assurance a court would enforce any limitations on our liability, and the outcome of any lawsuit would depend on the specific facts of the case and legal and policy considerations. We also believe we would have meritorious defenses to any such claims, but there can be no assurance we would prevail. In such cases, we could be liable for substantial damage awards. Such damage awards might exceed our liability insurance by unknown but significant amounts, which would seriously harm our business.

RISKS CONCERNING OUR INDUSTRY

WE MAY BE HURT BY SYSTEM FAILURES.

Our success is largely dependent upon our ability to deliver high speed, uninterrupted access to our servers on the Internet. Any system failure that causes interruptions in our operations could have a material adverse effect on us. We currently rely upon Earthlink and Verizon. Failures in this or any other server farm on which we rely would result in customers' receiving no or diminished access to the Internet. (Our web server farmer is the two Dell computers we use to host websites.)

WE COULD BE HELD LIABLE FOR INFORMATION DISSEMINATED OVER OUR NETWORK.

The law relating to liability of ISPs for information and materials carried

on or disseminated through their networks is not completely settled. The possibility that courts could impose liability for information or material carried on or disseminated through our network could require us to take measures to reduce our exposure to such liability. Such measures may require us to spend substantial resources or to discontinue certain product or service offerings. Any of these actions could have a material adverse effect on our business, operating results and financial condition.

Due to the increasing use of the Internet, it is possible that additional laws and regulations may be adopted with respect to the Internet covering issues such as user privacy, pricing, taxes, defamation, obscenity, intellectual property protection, consumer protection, technology export and other controls. Changes in the regulatory environment relating to the Internet services industry could have a material adverse effect on our business, results of operation and financial condition.

WE ARE SUBJECT TO THE RISKS ASSOCIATED WITH RAPID INDUSTRY CHANGES.

The Internet services industry in which we operate is characterized by rapidly changing technology, evolving industry standards, emerging competition and frequent new service, software and other product innovations. We cannot guarantee that we will be able to identify new service opportunities successfully and develop and bring new services to market in a timely and cost-effective manner, or that products, software and services or technologies developed by others will not render our services non-competitive or obsolete. In addition, we cannot provide any assurance that our service developments or enhancements will achieve or sustain market acceptance or be able to address effectively the compatibility issues raised by technological changes or new industry standards. For example, we are using a Microsoft based system and may be unable to run services run by vendors who are not compatible with Microsoft. This type of compatibility problem may increase and therefore reduce our opportunities. Additionally, with more companies providing higher bandwidth for a lower cost, like DSL (digital subscriber lines) or cable, it is becoming less expensive for companies to host their own websites.

3

WE OPERATE IN AN EVOLVING MARKET WITH UNCERTAIN PROSPECTS FOR GROWTH.

Our future growth, if any, will depend on the continued trend of businesses outsourcing their Web site and application hosting and our ability to market our services effectively. There can be no assurance that the market for our services will grow, that our services will be adopted, or that businesses will use these Internet-based services to the degree or in the manner that we expect. It is possible that at some point businesses may find it cheaper, more secure or otherwise preferable to host their Web sites and applications internally and decide not to outsource the management of their Web sites and applications internally or self-manage and decide not to outsource the management of their Web sites and applications. If we are unable to react quickly to changes in the market, if the market fails to develop, or develops more slowly than expected, or if our services do not achieve market acceptance, then we are unlikely to become or remain profitable.

WE MAY BE UNABLE TO ACHIEVE OUR OPERATING AND FINANCIAL OBJECTIVES DUE TO SIGNIFICANT COMPETITION IN THE WEB SITE AND APPLICATION HOSTING INDUSTRY.

The market for hosting Web sites and applications is highly competitive. There are few substantial barriers to entry into this market and most of our current competitors have substantially greater financial, technical and marketing resources, larger customer bases, more data centers, longer operating histories, greater name recognition and more established relationships in the industry than we possess. Our current and potential competitors in the market include Web hosting service providers, as well as web design companies and countless of individual free-lance web designers.

Our competitors may be able to expand their network infrastructures and service offerings more quickly. They may also bundle other services with their Web site hosting or application hosting services, which could allow them to reduce the relative prices of their Web site hosting and/or application hosting services beyond levels that we could compete with, and generally adopt more aggressive pricing policies. For example they may offer both e-mail service and web hosting for a price comparable to what we offer web hosting for. In addition, some competitors have entered and will likely continue to enter into joint ventures or alliances to provide additional services which may be competitive with those we provide. We also believe the Web site hosting and application hosting markets are likely to experience consolidation in the near future, which could result in increased price and other competition that would make it more difficult for us to compete.

OUR SERVER FARMS AND THE NETWORKS WE RELY ON ARE SENSITIVE TO HARM FROM HUMAN ACTIONS AND NATURAL DISASTERS. ANY RESULTING DISRUPTION COULD SIGNIFICANTLY DAMAGE OUR BUSINESS AND REPUTATION.

Our ability to provide reliable service will largely depend on the performance and security of our server farms. In addition, our customers often

maintain confidential information on our servers. However, our data centers and equipment, the networks we use, and our potential customers' information are subject to damage and unauthorized access from human error and tampering, breaches of security, natural disasters, power loss, capacity limitations, software defects, telecommunications failures, intentional acts of vandalism, including computer viruses, and other factors that have caused, and will continue to cause, interruptions in service or reduced capacity for our customers, and could potentially jeopardize the security of our customers' confidential information such as credit card and bank account numbers. The occurrence of a security breach, a natural disaster, interruption in service or other unanticipated problems could seriously damage our business and reputation and cause us to lose customers. Additionally, the time and expense required to eliminate computer viruses and alleviate other security problems could be significant and could impair our service quality. We also intend to provide our customers with service level agreements. If we do not meet the required service levels, we may have to provide credits to our customers, which could significantly reduce our revenues. Additionally, in the event of any resulting harm to customers, we could be held liable for damages. Awards for such damages might exceed our liability insurance by an unknown but significant amount and could seriously harm our business.

4

IF WE DO NOT RESPOND EFFECTIVELY AND ON A TIMELY BASIS TO RAPID TECHNOLOGICAL CHANGE OUR BUSINESS COULD SUFFER.

Internet and networking technology is changing rapidly. Our future success will depend largely on our ability to:

- offer services that incorporate leading technologies;
- address the increasingly sophisticated and varied needs of our prospective customers;
- respond to technological advances and emerging industry standards on a timely and cost-effective basis; and
- continue offering services that are compatible with products and services of other vendors.

Our failure to conform to the prevailing standards, or the failure of common standards to emerge, could harm our business. In addition, products, services or technologies developed by others may render our services no longer competitive or obsolete.

OUR BUSINESS WILL NOT GROW UNLESS INTERNET USAGE AND DEMAND FOR NEW WEB SITES GROWS.

Our success will depend on the continued growth of business's need to expand their presence on the web. Our business plan anticipates extensive growth in the Web site hosting and application hosting markets. The growth of the Internet, including the Web site hosting and application hosting markets, is subject to a high level of uncertainty and depends on a number of factors, including the growth in consumer and business use of new interactive technologies, the development of technologies that facilitate interactive communications, security concerns and increases in data transport capacity. If the Internet as a commercial medium fails to grow or develops more slowly than expected, then our business is unlikely to grow.

The recent growth in the use of the Internet in general has caused frequent periods of performance degradation. Any perceived degradation in the performance of the Internet as a whole could undermine the benefits of our services. The performance of our Web site and application hosting services is ultimately limited by and relies on the speed and reliability of our networks and third party networks. Consequently, the growth of the market for our services depends on improvements being made to the entire Internet infrastructure to alleviate overloading and congestion.

LOSS OF CORPORATE HEADQUARTERS

Neither Hosting nor Mr. Vicari has a lease or title to the physical location where Hosting's operations and corporate headquarters are located. This location is the site of Hosting's computers. If Hosting lost use of this location it would cause a disruption in our service and most likely require the expenditure of funds to lease alternative office space. This would likely have a material negative impact on Hosting's operations.

MR. VICARI'S CONFLICT OF INTEREST

Mr. Vicari is involved in three other computer consulting ventures. This will put a serious constraint on his time and his availability to address matters concerning Hosting. This may have a material negative impact on Hosting's operations.

RISKS CONCERNING OUR OFFERING

UNLESS A PUBLIC MARKET DEVELOPS FOR OUR COMMON STOCK, YOU MAY NOT BE ABLE TO SELL YOUR SHARES.

There has been no public market for our common stock. There can be no assurance, moreover, that an active trading market will ever develop or, if developed, that it will be maintained. Failure to develop or maintain an active trading market could negatively affect the price of our securities, and you may be unable to sell your shares.

5

PREFERRED STOCK ISSUED IN THE FUTURE MAY NEGATIVELY IMPACT HOLDERS OF COMMON STOCK.

Our board of directors is authorized, without further stockholder approval, to issue up to 1,000,000 shares of preferred stock in one or more series and to fix the rights, preferences, privileges and restrictions of these shares, including dividend rights, conversion rights, voting rights, terms of redemption and liquidation preferences, and to fix the number of shares constituting any series and the designations of these series. These shares may have rights senior to our common stock. The issuance of preferred stock may have the effect of delaying or preventing a change in control of us. The issuance of preferred stock could decrease the amount of earnings and assets available for distribution to the holders of common stock or could adversely affect the rights and powers, including voting rights, of the holders of our common stock.

IF OUR STOCK DOES BECOME PUBLICLY TRADED, WE WILL LIKELY BE SUBJECT TO THE PENNY STOCK RULES.

Broker-dealer practices in connection with transactions in "penny stocks" are regulated by certain rules adopted by the Securities and Exchange Commission. Penny stocks generally are equity securities with a price of less than \$5.00 (other than securities registered on certain national securities exchanges or quoted on the NASDAQ Stock Market provided that current price and volume information with respect to transactions in such securities is provided by the exchange or system). The rules require that a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, deliver a standardized risk disclosure document that provides information about penny stocks and the risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in connection with the transaction and monthly account statements showing the market value of each penny stock held in the customer's account. In addition, the rules generally require that prior to a transaction in a penny stock, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These disclosure requirements may have the effect of reducing the liquidity of penny stocks. If our securities become subject to the penny stock rules, investors in the offering may find it more difficult to sell their securities. (See PLAN OF DISTRIBUTION.)

WE MAY NOT QUALIFY FOR NASD OVER-THE-COUNTER ELECTRONIC BULLETIN BOARD INCLUSION, AND THEREFORE YOU MAY BE UNABLE TO SELL YOUR SHARES.

Upon completion of this offering, we will attempt to have our common stock eligible for quotation on the NASD Over-the-Counter Electronic Bulletin Board ("OTCBB" or "Bulletin Board"). OTCBB eligible securities includes securities not listed on NASDAQ or a registered national securities in the U.S. and that are also required to file reports pursuant to Section 13 or 15(d) of the Securities Act of 1933, and the company is current in its periodic securities reporting obligations. Hosting has engaged a broker/dealer to file a Form 211 with the National Association of Securities Dealers ("NASD") in order to allow the quote of Inventory's common stock on the OTCBB. The Form 211 has been filed. The market maker has committed to make a market in our securities once the Form 211 clears with the NASD. For more information on the OTCBB see its website at www.otcbb.com. If for any reason, however, any of our securities are not eligible for continued quotation on the Bulletin Board or a public trading market does not develop, purchasers of the shares may have difficulty selling their securities should they desire to do so. If we are unable to satisfy the requirements for quotation on the Bulletin Board, any trading in our common stock would be conducted in the over-the-counter market in what are commonly referred to as the "pink sheets". As a result, an investor may find it more difficult to dispose of, or to obtain accurate quotations as to the price of, the securities offered hereby. The above-described rules may materially adversely affect the liquidity of the market for our securities. (See PLAN OF DISTRIBUTION.)

WE ARE CONTROLLED BY OUR OFFICERS AND DIRECTORS WHICH MAY RESULT IN YOU HAVING NO CONTROL IN THE DIRECTION OR AFFAIRS OF HOSTING.

Our president, CEO and chairman of the board and our secretary and director (three people in total) control approximately 50.1% of our outstanding common stock. As a result, they have the ability to control our company and direct our affairs and business, including the election of directors and approval of significant

6

corporate transactions. This concentration of ownership may have the effect of delaying, deferring or preventing a change in control of our company and may make some transactions more difficult or impossible without the support of these stockholders. Any of these events could decrease the market price of our common stock. (See SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT.)

WE DO NOT EXPECT TO PAY DIVIDENDS.

We do not anticipate paying cash dividends in the foreseeable future.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Prospectus contains certain financial information and statements regarding our operations and financial prospects of a forward-looking nature. Although these statements accurately reflect management's current understanding and beliefs, we caution you that certain important factors may affect our actual results and could cause such results to differ materially from any forward-looking statements which may be deemed to be made in this Prospectus. For this purpose, any statements contained in this Prospectus which are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the generality of the foregoing, words such as, "may", "will", "intend", "expect", "believe", "anticipate", "could", "estimate", "plan" or "continue" or the negative variations of those words or comparable terminology are intended to identify forward-looking statements. There can be no assurance of any kind that such forward-looking information and statements will be reflective in any way of our actual future operations and/or financial results, and any of such information and statements should not be relied upon either in whole or in part in connection with any decision to invest in the shares.

USE OF PROCEEDS

We will not receive any proceeds from the sale of the stockholder's shares offered by this prospectus. All proceeds from the sale of the stockholders' shares will be for the account of the selling shareholders.

We do not have a direct contract with Verizon. We intend to provide the computer software, network technology, and systems management necessary to offer our customers comprehensive outsourced web site and application hosting services. The principal services which we plan to offer are:

- Web site hosting; and
- E-mail and related services such as conference and bulletin board facilities and mailing list management.

INDUSTRY BACKGROUND

The Internet is a global network of multiple private and public networks that use standardized communication protocols to communicate with each other. The Internet has become an important communication and commercial medium and presents a significant opportunity for associations and businesses to interact in new and different ways with a larger number of members, customers, employees, suppliers and partners. As use of the Internet grows, associations and businesses are increasing the breadth and depth of their Internet product and service offerings. Pioneering Internet-based organizations have developed Internet products and services in areas such as finance, insurance, media, tourism, retail and advertising. Other organizations have begun to use the Internet for an expanding variety of applications, ranging from corporate or association publicity and advertising, to sales, distribution, customer service, employee training and communication with partners. Increasingly, Internet operations are becoming mission-critical for many of these enterprises. To ensure the reliability of their Internet operations, enterprises are requiring that these operations have high performance standards, scalability and expert management 24 hours a day, 7 days a week.

Enterprises generally utilize two types of Internet services: connectivity and valued-added services. We plan to provide companies with value-added services such as Web hosting and communication services that improve the internal and external operations of an enterprise. These value-added services represent one of the fastest growing segments of the Internet services market. The availability of Internet access, the advancements

10

in technologies required to navigate the Internet and the proliferation of content and applications available over the Internet have attracted a growing number of Internet users.

The Web hosting provider market is segmented into large national or multinational providers with large high speed networks and regional or local hosting companies, who typically rely upon the larger networks for Internet connectivity. The larger Web hosting companies, like UUNet are referred to as "tier one" networks, which exchange Internet traffic cost-free, at multiple public peering points, as well as through private peering arrangements.

As is typical in the case of a new and rapidly evolving industry the Internet is characterized by rapidly changing technology, evolving industry standards and frequent new product and service introductions. Demand for recently introduced products and services is subject to a level of uncertainty. Despite growing interest in the many uses of the Internet some potential users could be deterred from purchasing Internet access services because of a perceived inconsistent quality of service, the need to deal with multiple and frequently incompatible vendors, and perceived inadequate protection of the confidentiality of stored data and information moving across the Internet. In particular, a perceived lack of security of commercial data, such as credit card numbers, could impede commercial exploitation of the Internet. There can be no assurance that encryption or other technologies will satisfactorily address these security concerns. The adoption of the Internet for commerce and communications, particularly by those individuals and enterprises which have historically relied upon alternative means of commerce and communication, generally requires the understanding and acceptance of a new way of conducting business.

OUR BUSINESS STRATEGY

Our business strategy is to provide affordable web hosting. We enable companies which seek to establish or reassess their presence on the Web by offering them attractive hosting packages at competitive rates. Through the binding of customers to monthly hosting and maintenance contracts, we encourage that the customer updates their web sites frequently, keeps the information current, and adapts the site to the changing need of their customers.

We anticipate that a majority of the clients of our services will initially be in the small to medium sized business market, as well as individual professionals. Therefore, to a large extent, our ability to grow depends upon the level at which we can attract new customers and bind them to our hosting and maintenance agreements. Recently various major Internet portals and communities have begun offering free Web hosting space which, in theory, would be sufficient to a substantial part of our potential Web hosting clients. Such free services however, in most cases involve the involuntary placement of advertisement and limits in hosting space and bandwidth. Even though the tools provided in connection with these free services are sufficient for the most basic self-made design of Web sites, they do not offer the capability to construct an entire professional Web site.

SERVICES

We plan to offer a variety of Internet services including Web hosting, Web consulting and electronic mail services. The following is a description of the services which we intend to provide to our customers.

WEB SITE HOSTING

We plan to offer our customers several options for hosting their Web sites. A customer can share space on a server which also hosts the Web sites of other customers. A Web site provides a company with a tangible identity and interactive presence on the Internet. The site allows a company to post information about itself that is easily accessible to all Internet users.

We also plan to offer customers the convenience of a limited free monthly update to their web site, which is included in the hosting cost. The extent of the free update provided depends on the hosting plan and cannot be carried forward if it was not used in any given month. The free update will encourage customers to keep their web site up-to-date with the most current information and prices.

11

CONSULTING SERVICES

Our consulting services will provide customized assistance to customers. These services include performance tuning (making sure that Hosting's servers are doing the right job for the client, e.g. no hardware or software glitches), site architecture assessment (network layout, how your servers are laid out in correlation to the Internet connection), migration planning (moving a website from one hosting company to our hosting service), capacity planning and disaster recovery planning. Our consulting services will assist customers with limited resources or who lack Internet and technical expertise. Our consulting engagements will range from a few hours to a few weeks depending on the complexity and volume of the services needed. We believe our consulting services will play an increasingly important role in supporting the implementation and maintenance of complex Web sites and Web-based applications.

OTHER SERVICES

We plan to offer a variety of other services, which enable communication over the Internet. These include virtual hosting of electronic mail. This allows users to maintain their own domains while housing their e-mail on our servers. We also offer the filtering of unsolicited e-mail. Our ListServe Management product enables the broadcast of e-mail to an established user group. It is used to conduct training sessions electronically, thereby eliminating the travel and related costs associated with live sessions. Our Web board product is used to post messages to members of a closed group and allows recipients of messages to respond. We offer our customers various combinations of these services which we call packages. We will charge our customers a monthly fee per user per package, which varies from \$5 to \$25 depending on the complexity of the package.

Our business is dependent upon the secure operation of our server farm used to host web sites. The server farm is the two Dell computers which run all the applications and services we will be providing. It is operating out of a basement location, which we believe is fairly secure from human interference and natural disasters.

COMPETITION

The business of providing Web hosting services is highly competitive and there are no substantial barriers to entry. There are thousands of competitors and we are at the bottom in terms of size. We believe that competition will intensify in the future and our ability to successfully compete depends on a number of factors, including:

- the capacity, reliability and security of the network with which we interconnect;
- the pricing structure of our services;
- expansion of the variety of services which we offer;
- our ability to adapt our services to new technological developments;
- our ability to implement broad and effective distribution channels; and
- principal market and economic trends.

Current and prospective competitors include:

- national, regional and local Web hosting companies;
- Web site hosting providers; and
- Free web hosting services and communities such as Yahoo's Geocities, HyperMart.net, and Xoom.com.

As web hosting providers we will compete with Interland, UUNet, HostPro, IMC Online and thousands of smaller hosting companies. We are dependent upon EarthLink for access to the Internet. If our contract with EarthLink were to be terminated or if the cost were substantially raised, our ability to maintain competitive prices to our customers could be materially and adversely affected.

Our competitors may be able to expand their network infrastructures and service offerings more quickly. They may also bundle other services with their Web site hosting or application hosting services, which could allow them to reduce the relative prices of their Web site hosting and/or application hosting services beyond levels that we could compete with, and generally adopt more aggressive pricing policies. For example they may offer both e-mail service and web hosting for a price comparable to what we offer web hosting for. In addition,

12

some competitors have entered and will likely continue to enter into joint ventures or alliances to provide additional services which may be competitive with those we provide. We also believe the Web site hosting and application hosting markets are likely to experience consolidation in the near future, which could result in increased price and other competition that would make it more difficult for us to compete.

In the area of Web site hosting, and the business of providing packaged Internet services to associations, a number of our competitors have significantly greater revenues than we have, and we believe that we can represent substantially less than 1% of these market sectors. We will strive to differentiate ourselves from our competitors:

- by offering lower prices made possible by our lower overhead; and
- with our ability to quickly adapt to new developments in our industry resulting from the small size of our organization.

We do not compete directly with EarthLink (who provides our access to the Internet) nor with Verizon. We believe that we could replace EarthLink fairly easily if our agreement was terminated. However, replacing service with Verizon may be more difficult, and might severely impact our business. We have no provider transition steps in place in the event that either agreement is terminated.

EMPLOYEES

As of October 31, 2001, we had no employees, other than our two officers and directors, Scott Vicari and Matthew Sebal, and director Ralph Brown. Scott Vicari and Matthew Sebal will provide all technical expertise. Mr. Vicari will work part time, approximately 6 hours per week. Mr. Sebal will also work part time, approximately 3 hours per week.

INTELLECTUAL PROPERTY

We have no patented technology that would preclude or inhibit competitors from entering our market. We intend to apply for registration of the trade name HSN(NJ).com. We intend to apply for copyrights as we develop new products and Web application solutions. There can be no assurance that these measures will prove sufficient to prevent misappropriation of our intellectual property or to deter independent third-party development of similar products.

REGULATION

Our operations are not currently subject to direct regulation by governmental agencies other than regulations applicable to businesses generally. As use of the Internet continues to grow, jurisdictions in which we operate may adopt regulations relating to prices charged users, content, privacy, intellectual property protection, libel or other matters. If adopted, such regulations could significantly affect our results of operations.

PROPERTIES

Our corporate headquarters is in Fanwood, New Jersey. Our president is providing this space without charge. We believe that our properties are adequate and suitable for their intended purposes. The property is the location of another venture of which Mr. Vicari is a co-owner, Accounteks, L.L.C. (This business provides computer expertise to help clients maintain and operate their accounting and billing computer systems.) Mr. Vicari's partner in Accounteks, L.L.C. owns the property.

We do not believe there are any pending or threatened legal proceedings that, if adversely determined, would have a material adverse effect on us.

On April 30, 2001, we entered into a three year employment agreement with our president, CEO and treasurer Scott Vicari. In exchange for taking on the duties of president Mr. Vicari received 3,000,000 shares of our common stock. Pursuant to the terms of the employment agreement with Mr. Vicari, if he is no longer employed with the Company prior to December 31, 2002 he forfeits all 3,000,000 shares of the Company's common stock. If he is no longer employed with the Company prior to December 31, 2003 he forfeits 2,000,000 shares of the Company's stock. If he is no longer employed with the Company prior to December 31, 2004 he forfeits 1,000,000 shares of the Company's stock. The employment agreement ends April 30, 2004. There are no other compensation or severance terms. Hosting has the right to terminate the agreement upon Mr. Vicari's death or incapacity for two consecutive months or upon good cause. Mr. Vicari has the right to terminate the agreement if his title or duties are materially reduced.

2001 STOCK OPTION PLAN

We adopted our 2001 Stock Option Plan in April 2001. The plan provides for the grant of options intended to qualify as "incentive stock options", options that are not intended to so qualify or "nonstatutory stock options" and stock appreciation rights. The total number of shares of common stock reserved for issuance under the plan is 500,000, subject to adjustment in the event of a stock split, stock dividend, recapitalization or similar capital change, plus an indeterminate number of shares of common stock issuable upon the exercise of "reload options" described below. We have not yet granted any options or stock appreciation rights under the plan.

The plan is presently administered by our board of directors, which selects the eligible persons to whom options shall be granted, determines the number of common shares subject to each option, the exercise price therefor and the periods during which options are exercisable, interprets the provisions of the plan and, subject to certain limitations, may amend the plan. Each option granted under the plan shall be evidenced by a written agreement between us and the optionee.

Options may be granted to our employees (including officers) and directors and certain of our consultants and advisors.

The exercise price for incentive stock options granted under the plan may not be less than the fair market value of the common stock on the date the option is granted, except for options granted to 10% stockholders which must have an exercise price of not less than 110% of the fair market value of the common stock on the date the option is granted. The exercise price for nonstatutory stock options is determined by the board of directors. Incentive stock options granted under the plan have a maximum term of ten years, except for 10% stockholders who are subject to a maximum term of five years. The term of nonstatutory stock options is determined by the board of directors. Options granted under the plan are not transferable, except by will and the laws of descent and distribution. The board of directors may grant options with a reload feature. Optionees granted a reload feature shall receive, contemporaneously with the payment of the option price in common stock, a right to purchase that number of common shares equal to the sum of (i) the number of shares of common stock used to exercise the option, and (ii) with respect to nonstatutory stock options, the number of shares of common stock used to satisfy any tax withholding requirement incident to the exercise of such nonstatutory stock option.

Also, the plan allows the board of directors to award to an optionee for each share of common stock covered by an option, a related alternate stock appreciation right, permitting the optionee to be paid the appreciation on the option in lieu of exercising the option. The amount of payment to which an optionee shall

15

be entitled upon the exercise of each stock appreciation right shall be the amount, if any, by which the fair market value of a share of common stock on the exercise date exceeds the exercise price per share of the option.

The board of directors will have discretion, in its view of what is best for the Company, whether to issue stock options and stock appreciation rights. There is no plan to register the options and underlying common stock for the 2001 Stock Option Plan.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

In April, 2001 Hosting issued 3,000,000 shares of its common stock to its president Scott Vicari in exchange for him working as president of the Company. Pursuant to the terms of the employment contract with Mr. Vicari, if he is no longer employed with the Company prior to December 31, 2002 he forfeits 3,000,000 shares of the Company's common stock. If he is no longer employed with the Company prior to December 31, 2003 he forfeits 2,000,000 shares of the Company's stock. If he is no longer employed with the Company prior to December 31, 2004 he forfeits the remaining 1,000,000 shares of the Company's stock. These shares were valued at \$.05 per share.

16

In April, 2001 Hosting issued 10,000 shares of common stock to director Ralph Brown. These shares were valued at \$.05 per share for a total of \$500.

In April, 2001 Hosting issued 10,000 shares of common stock to director Matthew Sebal. These shares were valued at \$.05 per share for a total of \$500.

From November, 2000 to May, 2001 the Company issued 2,803,000 shares of its common stock at \$.05 per share.

In October, 2000 Hosting issued 200,000 shares of its common stock to KGL Investments, Ltd, the beneficial owner of which is Kaplan Gottbetter & Levenson, LLP, counsel to Hosting in exchange for legal services rendered, valued at \$10,000. These shares were valued at \$.05 per share. All other legal fees will be paid in cash.

On September 14, 2000, Hosting concluded an asset purchase agreement with Nicklas Weich, (our former president CEO, CFO and Chairman of the Board), through which Hosting's then wholly owned subsidiary, CreativeSites.Com, Inc. acquired all of the assets of CreativeSites.com (Nicklas Weich's sole proprietorship) for 4,000,000 shares of our common stock issued to Nicklas Weich.

On April 30, 2001 Hosting sold CreativeSites.com, Inc. to Nicklas Weich in exchange for his 4,000,000 shares of Hosting common stock. At that time Nicklas Weich resigned as president CEO, CFO and Chairman of the Board. At that time Scott Ventura and John McVeigh also resigned as directors.

The purchase of Creativesites.com was unwound because Mr. Weich wanted it

unwound. The assets of Creativesites.com were valued at \$4,000 both at the time the assets were purchased in September 2000 and when they were sold in April 2001. There were no other assets or liabilities transferred between Hosting Site Network, Inc. and Creativesites.com. The common shares issued to and acquired from Mr. Weich were valued at \$4,000.

On September 14, 2000 Hosting issued 300,000 shares of Hosting common stock to each of Hosting's then directors Scott Ventura and John McVeigh in exchange for \$300 from each of them. Mr. Ventura and Mr. McVeigh failed to pay the purchase price of \$300, and subsequently resigned as directors. They both returned each of their 300,000 shares of common stock.

We believe that the terms of the above transactions are commercially reasonable and no less favorable to us than we could have obtained from an unaffiliated third party on an arm's length basis. To the extent we may enter into any agreements with related parties in the future, the board of directors has determined that such agreements must be on similar terms.

INDEMNIFICATION AND LIMITATION OF LIABILITY OF MANAGEMENT

This will limit your ability as shareholders to hold officers and directors liable and collect monetary damages for breaches of fiduciary duty, and requires us to indemnify officers and directors to the full extent permitted by law. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers, and controlling persons under these provisions or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission, indemnification is against public policy as expressed in the Act and is unenforceable.

DESCRIPTION OF SECURITIES

Accordingly, holders of a majority of the shares of our common stock entitled to vote in any election of directors may elect all of the directors standing for election. Subject to preferences that may be applicable to any shares of preferred stock outstanding at the time, holders of our common stock are entitled to receive dividends ratably, if any, as may be declared from time to time by our board of directors out of funds legally available therefor.

Holders of our common stock have no preemptive, subscription, redemption or conversion rights, and there are no redemption or sinking fund provisions applicable to the common stock. The rights, preferences and privileges of holders of common stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of preferred stock which we may designate and issue in the future.

PREFERRED STOCK

Our board of directors is authorized, without further stockholder approval, to issue up to 1,000,000 shares of preferred stock in one or more series and to fix the rights, preferences, privileges and restrictions of these shares, including dividend rights, conversion rights, voting rights, terms of redemption and liquidation preferences, and to fix the number of shares constituting any series and the designations of these series. These shares may have rights senior to our common stock. The issuance of preferred stock may have the effect of delaying or preventing a change in control of us. The issuance of preferred stock could decrease the amount of earnings and assets available for distribution to the holders of common stock or could adversely affect the rights and powers, including voting rights, of the holders of our common stock. At

present, we have no plans to issue any shares of our preferred stock.

PLAN OF DISTRIBUTION

The shares covered by this prospectus may be offered and sold from time to time by the selling stockholders. The term "selling stockholder" includes donees, pledgees, transferees or other successors-in-interest selling shares received after the date of this prospectus from a selling stockholder as a gift, pledge, partnership distribution or other non-sale related transfer. The selling stockholders will act independently of us in making decisions with respect to the timing, manner and size of each sale. The price is set at \$.05 per share. The determination of the offering price has been arbitrarily determined. The selling stockholders may sell their shares through registered broker-dealers by one or more of, or a combination of, the following methods:

- a. purchase by a broker-dealer as principal and resale by such broker-dealer for its own account through this prospectus; and
- b. ordinary brokerage transactions and transactions in which the broker solicits purchasers.

In addition, any shares that qualify for sale under Rule 144 may be sold under Rule 144 rather than through this prospectus.

In offering the shares covered by this prospectus, the selling stockholders and any broker-dealers who execute sales for the selling stockholders may be deemed to be an "underwriter" within the meaning of the Securities Act in connection with such sales. Any profits realized by the selling stockholders and the compensation of any broker-dealer may be deemed to be underwriting discounts and commissions.

Selling shareholders may sell their shares in all 50 states in the U.S. Hosting will be profiled in the Standard & Poor's publications or "manuals".

MARKET FOR COMMON EQUITY

SHARES ELIGIBLE FOR FUTURE SALE

MARKET INFORMATION

There is no public trading market on which Hosting's Common Stock is traded. Hosting has engaged a broker/dealer to file a Form 211 with the National Association of Securities Dealers ("NASD") in order to allow the quote of Hosting's common stock on the NASD Over-the-Counter Bulletin Board (OTCBB). There is no assurance that our common stock will be included on the OTCBB.

20

There are approximately forty-five (45) record holders of common equity.

There are no outstanding options or warrants to purchase, or securities convertible into, common equity of Hosting.

We have outstanding 6,023,000 shares of our common stock. Of these shares, 3,003,000 shares, will be freely tradable without restriction under the Securities Act unless held by our "affiliates" as that term is defined in Rule 144 under the Securities Act. These shares will be eligible for sale in the public market, subject to certain volume limitations and the expiration of applicable holding periods under Rule 144 under the Securities Act. Non-affiliates currently hold 3,003,000 of our outstanding shares (49.9%). In general, under Rule 144 as currently in effect, a person (or persons whose shares are aggregated) who has beneficially owned restricted shares for at least one year (including the holding period of any prior owner or affiliate) would be entitled to sell within any three-month period a number of shares that does not exceed the greater of (1) % of the number of shares of common stock then outstanding or (2) the average weekly trading volume of the common stock during

the four calendar weeks preceding the filing of a Form 144 with respect to such sale. Sales under Rule 144 are also subject to certain manner of sale provisions and notice requirements and to the availability of current public information about us. Under Rule 144(k), a person who is not deemed to have been an affiliate of us at any time during the three months preceding a sale, and who has beneficially owned the shares proposed to be sold for at least two years (including the holding period of any prior owner except an affiliate), is entitled to sell such shares without complying with the manner of sale, public information, volume limitation or notice provisions of Rule 144.

We can offer no assurance that an active public market in our shares will develop. Future sales of substantial amounts of our shares in the public market could adversely affect market prices prevailing from time to time and could impair our ability to raise capital through the sale of our equity securities.

The Company intends to provide the computer software, network technology and systems management necessary to offer its customers comprehensive outsourced website and application hosting solutions. The principal products and services, that the Company and its subsidiary plan to offer are:

2. BASIS OF PRESENTATION AND CONSOLIDATION

On September 14, 2000, Hosting concluded an asset purchase agreement with Nicklas Weich, through which the Company's wholly owned subsidiary, Creative Site.Com, Inc. acquired all of the assets of CreativeSites.com for 4,000,000 of the Company's common stock. In the absence of any other basis to estimate the fair market value of the stock transferred to Nicklas Weich, the Company took the position that the fair market value of the stock equaled the fair market value of the assets and contracts acquired from Creative Sites.com.

3. SIGNIFICANT ACCOUNTING POLICIES

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and matters for disclosure at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

INCOME TAXES

The Company uses the liability method for income taxes as required by SFAS No. 109 "Accounting for Income Taxes." Under this method, deferred tax assets and liabilities are determined based on differences between financial reporting and tax basis of assets and liabilities. Deferred tax assets and liabilities are measured using enacted tax rates and laws that will be in effect when the differences are expected to reverse. Valuation allowances are established when necessary to reduce the deferred tax asset to the amounts expected to be realized.

DIVIDENDS

Hosting Site Network, Inc. does not expect to pay cash dividends on its common stock in the foreseeable future. The board of directors has sole discretion to pay cash dividends based on the company's financial condition, results of operations, capital requirements, contractual obligations and other relevant factors.

FINANCIAL INSTRUMENTS

Current assets and liabilities are reported at their face amount, which because of their short-term nature, approximates fair value.

NET LOSS PER SHARE

Basic net loss per share is computed by dividing net loss by the weighted average number of shares outstanding for the period. Diluted earnings per share reflects the potential dilution of securities by adding other common stock equivalents, including, stock options, warrants and convertible preferred stock, to the weighted average number of common shares outstanding during the period, if dilutive. Potentially dilutive securities have been excluded from the computation of diluted net loss as their inclusion would be antidilutive.

The calculation of basic and diluted net loss per share is as follows:

COMPREHENSIVE INCOME (LOSS)

There is no difference in the Company's historical net losses as reported and comprehensive net loss.

ACCRUAL BASIS

The financial statements have been prepared on the accrual basis of accounting. Revenues are reflected when earned and expenses are recognized when incurred.

The Company has reviewed Securities and Exchange Commission Staff Accounting Bulletin ("SAB") No. 101, "Revenue Recognition in Financial Statements," and its effect on the recognition of web hosting fee revenue. At September 30, 2001 The Company has not entered into any written or oral web site hosting agreements with third parties. The Company only expects to make written agreements in the future. Revenue from these third parties will be recognized only when the terms of the written contracts are satisfied.

4. RELATED PARTIES, CONTRIBUTED CAPITAL & COMPENSATION SERVICES

A. As of September 30, 2000, all significant contributed capital of the Company was provided by four shareholders who owned one hundred (100) percent of the Company's shares. Nicklas Weich the then president, CEO, CFO and Chairman of the Board owned eighty (80) percent of the Company's outstanding common stock. Two other executive officers and directors of the Company, Scott Ventura and John McVeigh owned twelve (12) percent of the Company's common stock, six (6) percent each. They both purchased the stocks at par value. Kaplan, Gottbetter & Levenson, LLP, ("KGL") the Company's legal representative owned eight (8) percent of the Company's common stock. 400,000 shares, were committed to KGL, in exchange for \$20,000 worth of legal services in connection with planned private and public placements of the Company's stock. However during the fiscal year ended September 30, 2001 their compensation agreement was amended and KGL was given 200,000 shares for \$10,000 worth of legal services and the balance on the legal fees was paid in cash.

B. In September 2000, the Company's Board of Directors authorized a private placement offering of the Company's common stock to a limited number of sophisticated investors at a price of \$.05 per share. From November 2000 to May 2001, the Company completed the private placement of 2,803,000 shares of common stock, resulting in cash proceeds of \$140,150. The offering expenses were charged against the proceeds of this offering.

C. On April 30, 2001 the Company sold Creativesites.com to Mr. Weich in exchange for his 4,000,000 shares of the Company's common stock. At that time Mr. Weich resigned from all his duties with the Company. In addition both Scott Ventura and John McVeigh returned each of their 300,000 shares of common stock since they failed to pay the purchase price and subsequently resigned as directors of the Company.

D. On April 30, 2001 the Company signed an executive employment agreement with the Company's new president Mr. Scott Vicari. Under the agreement Mr. Vicari was granted 3,000,000 shares of common stock as a compensation for his services to the Company. However if Mr. Vicari's employment with the Company is terminated prior to December 31, 2002 he forfeits the entire 3,000,000 shares of the Company's stock. If his employment is terminated prior to December 31, 2003 he forfeits 2,000,000 shares of the Company's stock. Finally if Mr. Vicari's employment is terminated prior to December 31, 2004 he forfeits the remaining 1,000,000 shares of the Company's stock. The stock compensation issued to Mr. Vicari was valued based upon the value placed on the shares during the private placement (five cents per share) as that was the value for the securities at the time of issue, and there was not a more reliable way to measure the services performed by Mr. Vicari for the Company. The amount is being amortized over the forty-four month of the employment contract period. Compensation expense of

\$16,566 was charged to expense for the year ended
 F-10
 HOSTING SITE NETWORK, INC.

(A DEVELOPMENT STAGE ENTERPRISE)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

September 30, 2001. The balance of the stock based compensation was deferred over the remaining period of the contract and is reflected as a reduction of shareholders' equity.

In April 30, 2001 the Company issued 10,000 shares of common stock, to each of its newly appointed directors Ralph Brown and Matthew Sebal as directors' fees for their services during the current fiscal year. These shares were valued based upon the value placed on the shares during the private placement (\$1,000).

E. Holders of common stock are entitled to one vote for each share held on all matters submitted to a vote of stockholders and do not have cumulative voting rights.

5. STOCK OPTIONS

Hosting Site Network adopted its 2001 Stock Option Plan in April 2001. The plan provides for the grant of options intended to qualify as "incentive stock options," options that are not intended to so qualify or "non-statutory stock options" and stock appreciation rights. The total number of shares of common stock reserved for issuance under the plan is 500,000, subject to adjustment in the event of a stock split, stock dividend, recapitalization or similar capital change, plus an indeterminate number of shares of common stock issuable upon the exercise of "reload options". The Company has not yet granted any options or stock appreciation rights under the plan.

The plan is presently administered by the Company's board of directors, which selects the eligible persons to whom options shall be granted, determines the number of common shares subject to each option, the exercise price thereof and the periods during which options are exercisable, interprets the provisions of the plan and, subject to certain limitations, may amend the plan. Each option granted under the plan will be evidenced by a written agreement between the company and the optionee.

Options may be granted to the Company's employees (including officers) and directors and certain of the Company's consultants and advisors.

6. INCOME TAXES

No provision for federal or state income taxes has been recorded due to net operating loss carryforwards totaling approximately \$54,500 that will be offset against future taxable income. In addition, deductions for deferred compensation that are now deductible for financial statement purposes are not deductible for tax purposes. These items will be offset against future taxable income. A valuation allowance was established to the extent of the tax benefit of the operating loss and deferred compensation. Accordingly no deferred tax asset was provided for.

Because there is a risk of forfeiture, the compensatory shares issued to Mr. Vicari will not be expensed for income tax purposes the same way they are expensed for financial statement purposes. Instead they will be expensed according to the following schedule:

7. RECENT ACCOUNTING PRONOUNCEMENTS

In June 2001, the Financial Accounting Standards Board issued Statement No. 141 Business Combinations and Statement No. 142 Goodwill and Other Intangible Assets. These statements become effective to the Company on July 1, 2001 for

Statement No. 141 and August 1, 2002 for Statement No. 142. The Company has not completed any business combinations as of September 30, 2001 and management cannot currently assess what effect the future adoption of these pronouncements will have on the Company's financial statements.

In June 15, 2001, the Financial Accounting Standards Board also issued Statement No. 143 Accounting For Asset Retirement Obligations and in August 15, 2001, Statement No. 144 Accounting For Impairment and Disposal of Long Lived Assets.

Statement No. 143 will change the accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs in four significant ways. First, Statement 143 requires that the amount initially recognized for an asset retirement obligation be measured at fair market value and not under the current practice of using a cost-accumulation measurement approach. Second, Statement 143 requires that the retirement obligation liability is discounted and accretion expense is recognized using the credit-adjusted risk-free interest rate in effect when the liability was initially recognized. Prior practice did not require discounting of the retirement obligation liability and therefore no accretion was recorded in periods subsequent to the initial recognition period. Third, under prior practice, dismantlement and restoration costs were taken into account in determining amortization and depreciation rates and often the recognized asset retirement obligation was recorded as a contra-asset. Under Statement 143, recognized asset retirement obligations are recognized as a liability. Fourth, under prior practice, the asset retirement obligation was recognized over that useful life of the related asset and under Statement 143 the obligation is recognized over that useful life of the related asset and under Statement 143 the obligation is recognized when the liability is incurred. The effective date for Statement No. 143 is for fiscal years beginning after June 15, 2002.

Statement No. 144, changes the accounting for long lived assets to be held and used by eliminating the requirement to allocate goodwill to long-lived assets to be tested for impairment, by providing a probability-weighted cash flow estimation approach to deal with situations in which alternative courses of action to recover the carrying amount of possible future cash flows and establishing a "primary-asset" approach to determine the cash flow estimation period for a group of assets and liabilities that represents the unit of accounting for a long-lived asset to be held and used. Statement No. 144 changes the accounting for long-lived assets to be disposed of other than the sale by requiring that the depreciable life of a long lived asset to be abandoned, be revised to reflect a shortened useful life and by requiring that an impairment loss be recognized at the date a long-lived asset is exchanged for a similar productive asset or distributed to owners in a spin-off if the carrying amount of the asset exceeds its fair value. Statement No. 144 changes the accounting for long lived assets to be disposed of by sale by requiring that discontinued operations no longer be measured on a net realizable value basis (but at the lower of carrying amount or fair value less costs to sell), by eliminating the recognition of future operating losses of discontinued components before they occur and by broadening the presentation of discontinued operations in the income statement to include a component of an entity rather than a segment of a business. A component of an entity comprises operations and cash flows that can be clearly distinguished, operationally, and for financial reporting purposes, from the rest of the entity. The effective date for Statement No. 144 is for fiscal years beginning after December 15, 2001.

The Company expects that the adoption of the new statements will not have a significant impact on its financial statements. It is not possible to quantify the impact until the newly issued statements have been studied.

INFORMATION NOT REQUIRED IN PROSPECTUS

ITEM 24. INDEMNIFICATION OF DIRECTORS AND OFFICERS.

The Delaware General Corporation Law provides for the indemnification of the officers, directors and corporate employees and agents of Hosting Site Network, Inc. (the "Registrant") under certain circumstances as follows:

INDEMNIFICATION OF OFFICERS, DIRECTORS, EMPLOYEES AND AGENTS; INSURANCE.

(a) A corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that he is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with such action, suit or proceeding if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or

proceeding, had reasonable cause to believe that his conduct was unlawful.

(b) A corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that he is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against expenses (including attorneys' fees) actually and reasonably incurred by him in connection with the defense or settlement of such action or suit if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation and except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstance of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such court shall deem proper.

(c) To the extent that a director, officer, employee or agent of a corporation has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to in subsections (a) and (b) of this section, or in defense of any claim, issue or matter therein, he shall be indemnified against expenses (including attorney's fees) actually and reasonably incurred by him in connection therewith.

(d) Any indemnification under subsections (a) and (b) of this section (unless ordered by a court) shall be made by the corporation only as authorized in the specific case upon a determination that indemnification of the director, officer, employee or agent is proper in the circumstances because he has met the applicable standard of conduct set forth in subsections (a) and (b) of this section. Such determination shall be made (1) by the board of directors by a majority vote of a quorum consisting of directors who were not parties to such action, suit or proceeding, or (2) if such a quorum is not obtainable, or even if obtainable a quorum of disinterested directors so directs, by independent legal counsel in a written opinion, or (3) by the stockholders.

(e) Expenses incurred by an officer or director in defending any civil, criminal, administrative or investigative action, suit or proceeding may be paid by the corporation in advance of the final disposition of

II-1

such action, suit or proceeding upon receipt of an undertaking by or on behalf of such director to repay such amount if it shall ultimately be determined that he is not entitled to be indemnified by the corporation as authorized in this section. Such expenses including attorneys' fees incurred by other employees and agents may be so paid upon such terms and conditions, if any, as the board of directors deems appropriate.

(f) The indemnification and advancement expenses provided by, or granted pursuant to, the other subsections of this section shall not be deemed exclusive of any other rights to which those seeking indemnification or advancement expenses may be entitled under any bylaw, agreement, vote of stockholders or disinterested directors or otherwise, both as to action in his official capacity and as to action in another capacity while holding such office.

(g) A corporation shall have power to purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against any liability asserted against him and incurred by him in any such capacity or arising out of his status as such, whether or not the corporation would have the power to indemnify him against such liability under this section.

(h) For purposes of this Section, references to "the corporation" shall include, in addition to the resulting corporation, any constituent corporation (including any constituent of a constituent) absorbed in a consolidation or merger which, if its separate existence had continued, would have had power and authority to indemnify its directors, officers and employees or agents so that any person who is or was a director, officer, employee or agent of such constituent corporation, or is or was serving at the request of such constituent corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, shall stand in the same position under this section with respect to the resulting or surviving corporation as he would have with respect to such constituent corporation as he would have with respect to such constituent corporation if its separate existence had continued.

(i) For purposes of this section, references to "other enterprises" shall include employee benefit plans; references to "fines" shall include any excise taxes assessed on a person with respect to an employee benefit plan; and references to "serving at the request of the corporation" shall include any service as a director, officer, employee or agent of the corporation which imposes duties on, or involves services by, such director, officer, employee, or agent with respect to an employee benefit plan, its participants, or beneficiaries; and a person who acted in good faith and in a manner he reasonably believed to be in the interest of the participants and beneficiaries of an employee benefit plan shall be deemed to have acted in a manner "not opposed to the best interests of the corporation" as referred to in this section.

(j) The indemnification and advancement of expenses provided by, or granted pursuant to, this section shall, unless otherwise provided when authorized or ratified, continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors, and administrators of such person.

Articles Ninth and Tenth of the Registrant's certificate of incorporation provide as follows:

NINTH:

The personal liability of the directors of the Corporation is hereby eliminated to the fullest extent permitted by the provisions of paragraph (7) of subsection (b) of Section 102 of the Delaware General Corporation Law, as the same may be amended and supplemented.

TENTH:

The Corporation shall, to the fullest extent permitted by the provisions of Section 145 of the Delaware General Corporation Law, as the same may be amended and supplemented, indemnify any and all persons whom it shall have power to indemnify under said section from and against any and all of the expenses, liabilities or other matters referred to in or covered by said section, and the indemnification provided for herein shall not be deemed exclusive of any other rights to which those indemnified may be entitled under any by-

II-2

law, agreement, vote of stockholders or disinterested directors or otherwise, both as to action in his official capacity and as to action in another capacity while holding such office, and shall continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors and administrators of such a person.

Article VII of the Registrant's by-laws provides as follows:

ARTICLE VII -- INDEMNIFICATION

Section 7.1. RIGHT TO INDEMNIFICATION. The Corporation shall indemnify and hold harmless, to the fullest extent permitted by applicable law as it presently exists or may hereafter be amended, any person who was or is made or is threatened to be made a party or is otherwise involved in any action, suit or proceeding, whether civil, criminal, administrative or investigative (a "proceeding") by reason of the fact that he or she, or a person for whom he or she is the legal representative, is or was a director, officer, employee or agent of the Corporation or is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation or of a partnership, joint venture, trust, enterprise or nonprofit entity, including service with respect to employee benefit plans, against all liability and loss suffered and expenses (including attorneys' fees) reasonably incurred by such person. Notwithstanding the preceding sentence, the Corporation shall be required to indemnify a person in connection with a proceeding (or part thereof) initiated by such person only if the proceeding (or part thereof) was authorized by the Board of Directors of the Corporation.

Section 7.2. PREPAYMENT OF EXPENSES. The Corporation shall pay the expenses (including attorneys' fees) incurred in defending any proceeding in advance of its final disposition; provided, however, that the payment of expenses incurred by a director or officer in advance of the final disposition of the proceeding shall be made only upon receipt of an undertaking by the director or officer to repay all amounts advanced if it should be ultimately determined that the director or officer is not entitled to be indemnified under this Article VII or otherwise.

Section 7.3. CLAIMS. If a claim for indemnification or payment of expenses under this Article VII is not paid in full within sixty days after a written claim therefor has been received by the Corporation, the claimant may file suit to recover the unpaid amount of such claim and, if successful in whole or in part, shall be entitled to be paid the expense of prosecuting such claim. In any such action the Corporation shall have the burden of proving that the claimant was not entitled to the requested indemnification or payment of expenses under applicable law.

Section 7.4. NONEXCLUSIVITY OF RIGHTS. The rights conferred on any person by this Article VII shall not be exclusive of any other rights which such person may have or hereafter acquire under any statute, provision of the Certificate of Incorporation, these Bylaws, agreement, vote of stockholders or disinterested directors or otherwise.

Section 7.5. OTHER INDEMNIFICATION. The Corporation's obligation, if any, to indemnify any person who was or is serving at its request as a director, officer, employee or agent of another corporation, partnership, joint venture, trust, enterprise or nonprofit entity shall be reduced by any amount such person

may collect as indemnification from such other corporation, partnership, joint venture, trust, enterprise or nonprofit enterprise.

Section 7.6. AMENDMENT OR REPEAL. Any repeal or modification of the foregoing provisions of this Article VII shall not adversely affect any right or protection hereunder of any person in respect of any act or omission occurring prior to the time of such repeal or modification.

ITEM 28. UNDERTAKINGS.

The Registrant undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement (the "Registration Statement"):

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933 (the "Securities Act");

(ii) To reflect in the prospectus any facts or events arising after the Effective Date of the Registration Statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the Registration Statement;

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the Registration Statement or any material change to such information in this Registration Statement, including (but not limited to) the addition of an underwriter.

(2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be treated as a new registration statement of the securities offered, and the offering of the securities at that time to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Registrant pursuant to any provisions contained in its Certificate of Incorporation, or by-laws, or otherwise, the Registrant has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

Once this order is accepted by EarthLink, this order package (including all attachments) will constitute a binding agreement between you and EarthLink ("the Agreement") for the Service(s) on the attached Product/Service Quote.

Fees

Fees include without limitation, set up fees, monthly service fee, and equipment fees and other applicable costs set forth above. EarthLink will invoice fees for Services and any equipment in advance. You agree to pay all federal, state or local taxes arising under this Agreement. Payment terms shall be net 30 days from date of invoice. You are solely responsible for the payment of all telephone company charges. Setup fees are not refundable. If you deem it necessary to re-terminate the circuit (move to new location), you will be responsible for additional EarthLink and telephone company fees. EarthLink is not responsible for Service disruptions caused by re-termination.

Purchase Orders

All purchase orders are subject to credit approval by EarthLink. You agree to be bound by the terms and conditions of the Agreement, any printed terms and conditions in the purchase order shall be of no force and effect. Purchase orders must be submitted in writing, a purchase order number alone will not suffice. Invoices based on approved Purchase Orders shall have payment terms of net 30.

Credit Cards

By providing your credit card number and your signature at the end of this order package, you authorize EarthLink to charge your credit card for the options checked above. Your EarthLink account will be considered delinquent if your credit card company refuses for any reason to pay the amount billed to it and that amount remains unpaid at the beginning of the next accounting cycle.

Price Changes

Customer acknowledges and agrees that EarthLink has the right to change its charges at any time subject to applicable law and upon notice to Customer.

Customer Charges

Customer acknowledges that Customer may incur charges while using the Services. For example, charges may be incurred as a result of accessing certain information, or purchasing or subscribing to certain offerings, via the Internet. Customer agrees that all charges, including all applicable taxes, shall be paid by Customer and are not the responsibility of EarthLink.

Term

The term of this Agreement shall commence on the Effective Date and continue for as long as EarthLink provides any Services to you hereunder. The term for any Services shall automatically renew on a month-to-month basis at your current rate following your expiration, unless you notify EarthLink in writing at least thirty (30) days in advance of your intent to cancel.

Termination. Service may be terminated by you or EarthLink for any reason effective at the end of a calendar month by providing written notice to the other party at least thirty (30) days prior to the requested termination date. EarthLink may terminate your account immediately if it determines, in its sole discretion, that you have violated any of the provisions of the Agreement. If you fail to make any payment to EarthLink for thirty (30) days or more, EarthLink may terminate this Agreement and/or disable the Service. To re-enable Service, EarthLink will require a reconnection fee. Termination does not affect your obligations under this Agreement, including your obligation to pay all fees for Services rendered prior to termination and any penalties incurred by such termination. If your account includes space on EarthLink's server, anything

stored on this space will be deleted upon inactivation. In the event that you terminate the Services prior to the expiration of your chosen term, EarthLink will charge an early termination penalty as follows: 1 year term = 1 month service fee penalty.

To cancel your account, you must contact EarthLink's Customer Service department at 1-888-698-4357. All EarthLink accounts must be paid in full before a cancellation will be considered complete. In the event you upgrade your SDSL Service, you will be required to sign a new Order Package and begin a new term for the replacing service. There is no penalty for early termination if you upgrade your Service.

Schedule of Minimum Service Requirements and Charges

Updated as of 09/01/01

1. Minimum Service Requirement

Customer agrees to maintain the SDSL Services for a minimum period of one year. 2. Installation And Equipment Charge

(a) Retail Prices. Installation, Equipment and Setup are billed as a one-time charge of \$499.00 for Hardware and \$225.00 for Setup. This rate is subject to periodic discounts and promotions. The actual amount charged for installation and equipment will match the current promotional rate for Customer's market.

(b) Non-Refundable Charge. Upon placing the order for the Services, Customer's credit card will be charged per the Product Service Quote attached to this Agreement. This amount is non-refundable unless EarthLink is unable to deliver the agreed Services. Terms and Conditions for EarthLink Dedicated Services

All use of the EarthLink network and services must comply with the then-current version of the EarthLink Acceptable Use Policy (AUP), which is made apart of this Agreement and is available at: <http://www.earthlink.net/about/policies/use/index.html>. You agree to review the AUP and the terms of service periodically, and if any change is not acceptable to you, you agree to terminate your subscription or authorized use by notifying the EarthLink Customer Service Department. Your continued use of EarthLink services after the effective date of any such change constitutes acceptance of all the changes.

1.0 Services

- 1.1 This Agreement establishes the terms and conditions for Dedicated Services offered by EarthLink. You may not lease, rent, transfer or resell EarthLink Services or any portion of EarthLink Services to any other party in any other way. You may not use EarthLink Services to compete with EarthLink or promote products or services which compete with EarthLink.
- 1.2 You are responsible for obtaining and maintaining any communications equipment necessary to connect to EarthLink services, including modems, computer hardware and software, and long distance or local telephone service. You are responsible for ensuring that such equipment or service is compatible with EarthLink's requirements. In addition, you are responsible for maintaining the security of your account, password, files, network and user access, and any information you disseminate through EarthLink

services or other Internet services, and for all use of your account with or without your knowledge or consent.

- 1.3 If EarthLink receives complaints or otherwise becomes aware of possible violations of the Agreement, EarthLink may, in its sole discretion, initiate an investigation. This investigation may include gathering information from and about account holders and examining the content of personal electronic communications, Web pages or EarthLink Personal Pages on EarthLink's servers. During any investigation, EarthLink may suspend services to any Customer being investigated. You agree to cooperate with any such investigation. Violations of this nature could subject you to criminal or civil liability including monetary damages and a \$200 handling fee charged to your EarthLink account.

Multi-homing (connection to EarthLink and one or more other ISPs simultaneously) is supported via BGP at an additional cost to the Customer. If Company runs out of addresses and is assigned a new address block, Company has 30 days to renumber and return the initial address block. Large address block requests may require written justification for American Registry for Internet Numbers. IP addresses are not portable and remain allocated to EarthLink. If EarthLink requests the Company renumber address space, Company agrees to do so within 30 days of request. If Company discontinues service with EarthLink, Company will return all IP addresses issued by EarthLink back to EarthLink. In addition, EarthLink will have no responsibility or liability for any actions or costs incurred by Company in obtaining or reconfiguring its equipment with new IP addresses if Service is terminated for any reason.

If the Service includes space on EarthLink's server, you take full responsibility for the use of the Services by any minors and hereby consent to such minor's use of the Service.
- 2.2 Company understands that internetworking communications are not secure, and may be subject to interception or loss. Company is responsible for its network security. EarthLink will not be liable

for damages arising out of unauthorized access to Company's network.

This Section 3 shall survive the termination of the Agreement.

3.1 The Services and any equipment and software provided to you by EarthLink are provided AS IS, WITHOUT WARRANTY OF ANY KIND, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. YOU AGREE THAT EARTHLINK WILL NOT BE LIABLE FOR ANY LOSS OF PROFITS, LOSS OF USE, INTERRUPTION OF BUSINESS, OR ANY DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY KIND WHETHER UNDER THIS AGREEMENT OR OTHERWISE ARISING OUT OF OR RELATED TO THE AGREEMENT OR YOUR USE OF OR INABILITY TO USE EARTHLINK SERVICES, EVEN IF EARTHLINK IS ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. EARTHLINK'S ENTIRE LIABILITY AND YOUR EXCLUSIVE REMEDY SHALL BE AT EARTHLINK'S OPTION, EITHER RETURN OF THE SERVICE FEES PAID FOR THE CURRENT MONTH OF SERVICE AND ANY SET-UP FEES PAID, OR REPLACEMENT OF CONNECTION SERVICES OR PRODUCTS. In any case, EarthLink's entire liability under or arising out of this Agreement will be limited to the amount you paid for the Services in the twelve (12) months prior to the act or injury that gave rise to the liability. However, some jurisdictions may not allow a limitation on liability for negligence that causes death or personal injury, and EarthLink limits its liability in such jurisdictions only to the degree allowed by applicable laws.

3.2 EarthLink, its employees, agents, suppliers, vendors and distributors make no warranty of any kind, either express or implied, regarding the quality, accuracy, or validity of the data and/or information available on its systems, or residing on or passing through its networks, or that EarthLink Services will be uninterrupted or error free.
